- Ideated a start-up idea called RetireWise and pitched it to industry experts and working on its development.
- Being part of Flagship fest as an outreach intern and event management intern.

## PROJECTS

### City care

Developed an innovative healthcare management platform aimed at improving accessibility and efficiency in medical services. Key features included real-time hospital bed availability, a symptom checker, doctor and hospital listings, an emergency assistance button, and medication references for urgent needs. Focused on addressing critical healthcare challenges using user-centric design and technology.

### RetireWise

Developed an innovative concept for a platform that provides tailored retirement planning solutions for individuals in the Indian financial system. The platform analyzes users' financial data to recommend an optimal mix of investment options, focusing on maximizing tax benefits and ensuring long-term financial security. By

leveraging data-driven insights, the solution aims to make retirement planning more accessible, efficient, and personalized for diverse financial profiles.

## CAPABILITIES AND STRENGTHS
